

David Scheel

Professor of Marine Biology
Institute of Culture & Environment
Alaska Pacific University

4101 University Drive
Anchorage, AK 99508
tel: 907-564-8318
e-mail: dscheel@alaskapacific.edu

Education

Ph.D. 1992, M.S. 1986, Ecology, University of Minnesota, Minneapolis, M.N.

Ph.D. thesis title: *Foraging behavior and predator avoidance: Lions and their prey in the Serengeti*. Thesis Professor: Dr. Craig Packer.

B.S. 1984 cum laude, Biology (Experimental Psychology minor)
Rensselaer Polytechnic Institute, Troy, N.Y.

Professional Appointments

2000-present - **Professor of Marine Biology**, Marine Biology Program Director (2000-2013)
Alaska Pacific University, Anchorage, AK.

1999 to 2003 - **Affiliate Scientist**

1993 to 1999 - **Associate Scientist**

Prince William Sound Science Center, working on marine conservation and the ecology of marine predators.

1995 to 2000 **Affiliate Assistant Professor**

University of Alaska Fairbanks

1999-2000 - **Visiting Assistant Professor**, Carroll College, Waukesha, WI. (I taught *Conservation & Environmental Improvement* and *Geographic Information Systems*).

Spring 1998-1999 - **Instructor**, St. Lawrence University, Canton N.Y.

(I taught *Behavioral Ecology* and *Philosophy of Evolution*)

Fall 1995 - **Instructor**, Prince William Sound Community College

(I taught *Using Geographic Information Systems for Ecological Research*)

1992-1993 - **Post-doctoral Associate**, University of Houston. *Impact of global environmental change on biodiversity of mammals in the southcentral United States*. Post-doctoral Professor: Dr. Guy Cameron.

1985 to 1992 - **Research Scientist**, Serengeti Wildlife Research Institute, Tanzania, working with Drs. Craig Packer & Anne Pusey on the ecology and conservation of African lions.

1984 to 1992 - **Teaching Assistant, Teaching Specialist**, and graduate student, University of Minnesota. (I taught nine different courses in the Ecology and Biology departments.)

Grants and Fellowships

2019-2024	Strengthening Undergraduate STEM Education through Aquariums & Animal Welfare - APU	U.S. Department of Education
2021	Indigenous One Health Capacity Building Undergraduate STEM Education through Octopus welfare research in Aquariums	Early Career Undergraduate Research Apprenticeship, Alaska Space Grant Program, NASA
2020	OMNI: Octopus Mirror Noesis Experiments (Experiments on instinctive behavior of octopuses)	University of Melbourne MDHS-Trusts Medicine, Dentistry & Health Sciences
2020	Equipment Grant: Custom fabricated aquatic animal quarantine system	Biomedical Learning and Student Training, NIH Building Infrastructure Leading to Diversity (BUILD) through University of Alaska Fairbanks Rasmuson Foundation
2018-2019	Alaska Pacific University Aquarium Lab Renovation	
2000-2018	Behavior & Benthic Ecology of Octopuses in Alaska	Pollock Conservation Consortium
2016	Student aquarium research: the science and technology of artificial ecosystems and captive marine animal life support	Alaska Space Grant Program, NASA
2010	Using remote sensing to assess behavioral responses to fishing in octopuses.	West Coast & Polar National Undersea Research Program, NOAA
2008, 2009, 2010	Behavior of free-roaming Giant Pacific Octopus <i>Enteroctopus dofleini</i> in Prince William Sound	Alaska Space Grant Program, NASA
2008, 2009	Ford Foundation Encountering Controversies/Difficult Dialogs Fellowship	Alaska Pacific University
2006	Octopus tagging study in south-central Alaska: movement rates.	Alaska Fisheries Development Foundation
2005	Denning and habitat ecology of the Giant Pacific Octopus	Expeditions Council of the National Geographic Society
2001-2004	Development of an autonomous underwater vehicle for behavioral studies of octopus and other marine animals by video technique	National Science Foundation OCE - Major Research Instrumentation
1999	Alaska Oceans Unified Research Plan	By contract with the Alaska Oceans Seas Fisheries Research Foundation
1998	Energy content of foods in the diet of the Giant Octopus	Merck Research Program (Student Research at the Interface of Biology and Chemistry), St. Lawrence University
1998	What is the significance of depth in the ecology of <i>Octopus dofleini</i> ?	West Coast & Polar National Undersea Research Program, NOAA
1995-1998	Long-term Killer Whale Database	North Gulf Oceanic Society / EVOS Trustee Council
1994-1998	Site specific Habitat and Biological Data for the proposed Shepard Point Road and Deep-water Port	City of Cordova/Alaska Department of Transportation
1995-1996, 1998	Predation by seabirds on hatchery-released salmon fry	Alaska Department of Fish & Game/EVOS Trustee Council
1995-1997	Survey of octopuses & their habitats	USFS/EVOS Trustee Council
1995	Equipment grant for underwater photography	PADI Project Aware
1994-1995	Co-author, Editor, Co-PI for Sound Ecosystem Assessment, EVOS restoration.	Alaska Department of Fish & Game/EVOS Trustee Council

1984-85, 1989	Graduate School Fellowship	University of Minnesota
1985,1986	Lions and their prey in the Serengeti. Dayton Natural History Fellowships	Bell Museum of Natural History, University of Minnesota

Dive Certification

I am a Scientific Diver meeting AAUS (Association for Advancement of Underwater Science) guidelines. I am a PADI-certified Dive Master and am certified as a Scientific Diver to 100 feet. I have logged over 500 scientific and training SCUBA dives (most in cold water and low visibility), and 16 submersible dives to as deep as 200 m in the research submersible *Delta*.

2000-present Dive Control Board member, Alaska Pacific University

2009-present Dive Control Board member, Alaska SeaLife Center

Publications (APU student or alumni names in bold.)

Book

1. Scheel, D. Many Things Under a Rock: The Mysteries of Octopuses. 2023 (13 Jun) with illustrations by **Laurel “Yoyo” Scheel**. Norton Press. <https://wnorton.com/books/9781324020691>

Articles and Chapters

2. **Marsteller, C.**, D. Scheel. *In prep Jun 2022*. How octopus chose their prey: A study of prey availability and preference by *Enteroctopus dofleini* in Prince William Sound, Alaska.

3. **Chancellor, S.**, D. Scheel, M. Hing, M. Lawrence, S. Linquist. *In prep Mar 2022*. Behaviors of *Octopus tetricus* in conspecific encounters.

4. Linquist, S., S. Schneider, S Kremer, **S. Chancellor**, D. Scheel, M. Lawrence. (*In prep Jun 2022*). Socially directed journeys in wild gloomy octopuses (*O. tetricus*) reveal mating dynamics.

5. **Weertman, W.**, D. Scheel. *In submission Feb 2023*. Male octopus hold the hectocotylized arm close to the body. *Marine Biology* (Proceedings of CIAC Sesimbra Portugal, April 2022).

6. **Chancellor S.**, B. Grasse, T. Sakmar, D. Scheel, J. S. Brown, R. M. Santymire. *In submission Apr 2023*. Exploring the effect of age on the reproductive and stress physiology of *Octopus bimaculoides* using dermal hormones. *Animals* 13. Preprint <https://assets.researchsquare.com/files/rs-655419/v1/a6737db1-f998-49f0-b61b-553776cad020.pdf?c=1640118984>

Scheel, D. *Enteroctopus dofleini* (Giant Pacific Octopus) habitats and fisheries. Presented at the 2nd Symposium on Marine Conservation Biology, San Francisco, June 2001.

Symposium and retreats

- Ford Foundation Faculty Fellow, Difficult Dialogs Related to Alaska Native Issues, 2009
- Ford Foundation Faculty Fellow, Encountering Controversies/Difficult Dialogs, May 2008
- Sitka Symposium, Island Institute, June 2001
- Writer's Retreat: Mesa Refuge, July 2001.

David Scheel Teaching Experience

I have a cumulative of over twenty FTE academic teaching-years as a college level instructor, gained in over thirty different biology and ecology-related courses (Listed in reverse chronological order of first offering).

Continuing Education courses

36. The Mysterious Life of Octopuses. OLÉ, Opportunities for Lifelong Education, Anchorage. Feb 2021.

Professor at Alaska Pacific University: 20 FTE years, AY2000/01 to AY2022/23 with three years Sabbatical.

35. PH 204 Introduction to Philosophy of Biology Spring 2023
34. PH 204 Introduction to Philosophy of Science Spring 2019
33. SC 412 Scientific Writing, Spring 2017-2020, 2022-2023; Fall 2022-2023
32. SC 405 Environmental Ethics, Spring 2016-2018, Fall 2018, 2019, 2021
31. MAR 224 Marine Field Work, Fall Block 2008-2009, 2011-2012
30. MAR 492 ST: Marine Biodiversity, Jan Block 2008
29. MAR 310 Scientific Diving, May Block 2003, 2005, 2009, 2011-2012
28. MAR 492 ST: Coral Propagation Techniques, Spring 2003
27. PH 302 Advanced topics in philosophy of Science (Mind; Evolution). Annually Spring 2002-2015.
26. MAR 205/305 Seabirds & Marine Mammals, Fall 2002, 2004, Spring 2011, 2018, 2020, 2022
25. MAR 330 Human Impacts in Marine Systems, Fall 2002-2005, 2010, 2016, 2018
24. MAR 290 Seminar Marine Biology, Spring 2002-2004; Mar490 2006, 2008, 2015, 2016, 2018, 2020, 2022
23. MAR 410 Coral Reef Ecology, January Block 2002, 2004, 2006
22. MAR 692 Graduate Seminar Readings in Marine Biology, Fall 2001, 2003, 2015, 2018
21. SC 213 Animal Behavior, Fall 2001, 2003, 2005, 2007, 2009, 2014, 2017, 2019, 2021, 2023
20. ST 292 Plankton Biology, May Block 2001
19. MAR 410 Marine Research Techniques, May Block 2001
18. MAR 215/315 Invertebrate Zoology, Spring 2001-2003, 2005, 2009, 2013, 2015, 2017, 2019, 2023
17. MAR 210 Aquarium Biology, Fall 2000-2002, 2004-2006, 2008-2010, 2012, 2014-2017, 2019, 2021-2023
16. MAR 201 Marine Biology, Fall 2000, Fall Block 2001-2007
15. GS 132 Introduction to Active Learning, Fall 2000
14. SC 102 Introductory Botany & Zoology Fall Block 2000

Instructor at other institutions: (7 course semesters).

13. Conservation & Environmental Improvement (Carroll College, Waukesha WI). Fall 1999.
12. Geographic Information Systems (Carroll College, Waukesha WI). Fall 1999.
11. Philosophy of Evolution (St. Lawrence University, Canton NY). Spring 1999
10. Behavioral Ecology (St. Lawrence University, Canton NY and as TA at the University of Minnesota). Spring 1998, Spring 1989
9. Geographic Information Systems for Ecological Research (PWS Community College, Cordova AK). Fall 1995.
8. Theoretical models of coexistence & resource use (Ecology, Evolution & Behavior, University of Minnesota). Spring 1992.
7. Introduction to Ecology (Ecology, Evolution and Behavior, University of Minnesota). Spring 1992.

Teaching Assistant (12 course semesters 1985-1986, 1988-1992): In the School of Biological Sciences, University of Minnesota, this position was as much a training program as a job. First year graduate students attended teacher training and assisted with both General Biology and General Ecology under the guidance of faculty who evaluated our teaching and taught us pedagogy. Throughout the program, I was encouraged to teach an array of courses and to build new teaching skills. I took a seminar in interactive teaching, designed labs for Introductory Ecology, and taught seven different courses with an array of instructors. For upper-level courses, I was responsible for content, design and teaching of a laboratory or recitation section, and gave guest lectures. I worked closely with students, designed labs, assignments, exams, and some lectures; and studied the teaching styles and examples of most of the professors in the Departments of Biology (BIO) and Ecology, Evolution and Behavior (EEB).

6. General Biology (BIO 1009) Winter 1992, Winter, Summer & Fall 1988, Winter & Spring 1986.
5. Animal Behavior (EEB 3111). Fall 1991.

4. General Biology with an Evolutionary Focus (BIO 1008) Winter & Spring 1991, Summer 1989.
3. General Ecology (EEB 5041) Fall 1990, Winter 1985; developed new laboratory lessons Fall 1989.
2. General Zoology (BIO 1106). Spring & Winter 1989, Spring 1988.
1. Natural History of Invertebrates (EEB field course). Summer 1985.
